

HALF MILLION IN BUILDING NOW UNDER WAY IN EL PASO; TO LET CONTRACT FOR \$75,000 SANATORIUM

New Buildings, Residences and Other Improvements Continue Through Midsummer Season; Work Is Soon to Start on \$75,000 Hospital; Architects Busy Drawing Plans For Bungalows; Lots Selling Fast.

Building operations and real estate sales continue in El Paso in spite of the summer season. More than \$500,000 worth of construction work is now being contracted for or is under way in the city.

Bids will be opened Monday for the new \$75,000 sanatorium which is to be built in Mesa Heights addition, near the G. H. pumping plant. The plans have been completed by Gibson and Robertson and have been given to the contractors. The building will measure 220 feet by 45 feet, will be three stories in the main part and the wings will be two stories high. Construction work will start before the end of the month on this work and it will be ready for occupancy by winter. Dr. C. M. Hendricks, of El Paso, is in charge of the sanatorium project.

New Bank Building. Laskin Bros. who own the property at the corner of Broadway and Overland streets, are having plans drawn by Frost and Frost for a new bank building to be erected on the property owned by them. It will be two stories high with a basement under the entire building. It will have a ground floor space measuring 75 by 45 feet and will be occupied by Laskin Bros. with their store, which is now located on Overland street. Work on the new building cannot begin until the present lessees have vacated.

A two-story building is to replace the frame stables which burned at the corner of Mills and Campbell streets. Horace Broadbent, who owns the corner where the fire occurred, is having plans made by O. H. Thorman for a two-story brick store building to cost \$25,000 and which will be erected on this property at once.

The Ramsey apartment house, which is being built on West Missouri street, will be completed by September 1 and will be occupied as soon as it is ready. It is being built by the Pink-Ramsey Realty company at a cost of \$40,000.

New Bank Near Court House. The Union Bank and Trust company building, on San Antonio street, is completed on the exterior and will be ready for the bank to occupy within another 30 days. The massive columns flanking the main entrance are in place, the brick front has been completed and the interior only remains to be finished.

The home of Victor Caruso, which is being erected on Sunset Heights, on West Prospect, will be completed within two weeks. It will cost \$10,000 and is one of the most attractive homes on the street. Gibson and Robertson are the architects.

Another apartment house is to be built on West Boulevard, at the intersection of this street with Santa Fe street. J. S. Fennell is having plans drawn for a \$12,000 apartment house on the ground which was made vacant when the old Loomis apartment house was wrecked by order of the fire marshal. The apartment house will have 16 apartments, two full apartments being planned in the basement.

Apartment House on Piedras. H. A. Carpenter is having plans drawn for an apartment house to be built on Piedras street, near the El Paso & Southwestern shops, to cost \$10,000. The contract for the construction work has been completed and the El Paso Building company.

The Roberts-Hanner apartment house, which is being built on the corner of Angu and Rio Grande streets, and which will be called the "Rio Grande," will be completed by August 1. It will cost \$20,000 and will be one of the most modern apartments in the city.

A home to cost \$20,000 is being planned by Fred and Fred Schwartz, on North Mesa avenue. It will be red pressed brick, with 11 rooms, a red tile roof and brick garage. Work will start on it this fall.

George Le Baron is having O. H. Thorman draw plans for a \$50,000 residence, to be built on the corner of Mesa and Montana streets. Horace Broadbent is also having the same architect plan the remodeling of his home in the 1100 block on Boulevard. The exterior and interior will be changed and two rooms added in the rear. The improvements will cost \$40,000. Other work that Thorman has plans made for include the complete remodeling of the Le Roy apartments on West Missouri street, both inside and out, to cost \$100,000.

16TH INFANTRY HAS FULLFLEDGED TRIBE OF RED MEN

Only Army Regiment in the World Able to Claim This Distinction.

The 16th infantry has the distinction of being the only regiment in the world that has a tribe of Redmen that has its own charter, which is always valid and in effect where the regiment may serve, or may be ordered.

Organized in 1908. The tribe was organized by a few members of the 16th infantry at Fort Crook, Nebraska, in 1908, and since that time has flourished and has taken in hundreds of Redmen. There are 200 members of the tribe in the regiment at present, while hundreds of others have left the service.

The tribe had Alaska for its headquarters in the years 1910-1911, and established two tribes in Alaska, so that there are Redmen in the Arctic circle as well as the Philippines.

It is believed that one reason the 16th infantry has such a good name in San Francisco, as well as in Alaska, is on account of the good feeling existing with the public, socially as well as fraternally, wherever a tribe of Redmen may be met.

After all, it is but natural that the

16th infantry should have a Redman lodge, as George Washington was the first Redman in the days of '76, when the Redmen sprung from the Sons of Tammany, otherwise known as the Boston Tea Party.

Tribe Adopts Resolutions. At a recent session of Onondaga tribe No. 8, Independent Order of Redmen, resolutions of sympathy were adopted in memory of brother David G. Knowlton, first sergeant in the 16th infantry, who died at the post hospital several weeks ago. A soldier for 23 years, Sergeant Knowlton was popular among the officers and men of his regiment. Copies of the resolution were ordered spread on the minutes, sent to the family in Schenectady, N. Y., and to the insignia at San Francisco, Calif., for publication.

WOODMEN PREPARE FOR THEIR PICNIC

Plans for the annual picnic, the big event of the Woodmen of the World, are now under way. White Spur has been selected for the picnic grounds. As on former occasions, members of the encampment will journey to the grounds in automobiles. While the picnic day has not been named yet, it is expected to occur at an early date. P. A. Vaughan and E. A. Berchard, who are in charge of the committee in charge, other Woodmen will assist them.

There was a good attendance at the meeting of the Woodmen held last Tuesday night. Three new applications for membership were received. J. H. Smith of Waco was a new member admitted to the encampment by transfer.

LOCAL MOOSE WILL ATTEND CONVENTION

In order that there shall be no delay in seating delegates to the grand Moose convention, occurring at Milwaukee on July 28, all subordinate lodges have been requested to see that their record is clear with the supreme lodge before the day of the convention. Dr. Felix P. Millen and Gunther Leasing are the delegates from the local Moose lodge and both are expected to attend the convention.

SCOTTISH RITE IS AFTER 1000 MEMBERS

The Scottish Rite Masons are after 1000 new members to be enlisted by next July. The annual report of registrar W. H. McCulloch, which is completed and will be forwarded to the supreme council at Washington, gives the Scottish Rite bodies a membership of 748. It is stated that there are all in good standing and there is plenty of cash in the working fund.

KNIGHTS OF PYTHIAS TO INSTALL THEIR NEW OFFICERS

The installation of the newly elected officers of the Knights of Pythias will occur next Thursday night. Deputy grand chancellor J. J. Kaster will preside over the installation ceremonies.

SIX ARE KILLED IN STORM; DAM BURSTS; 25 MEN ESCAPE

Philadelphia, Pa., July 11.—Six persons killed and property damage estimated at hundreds of thousands of dollars was the result of cloudbursts and electric storms in the Lebanon valley Friday. Hall, which accompanied the storm, destroyed much of the fruit crop.

Twenty-five men were caught in a mine 200 feet below the surface at a point near Scranton, when a dam burst and flooded the workings. They managed to escape to the surface by wading through water up to their shoulders.

ACCUSED AVIATOR WELL KNOWN HERE

Robert Fowler, the aviator who has been arrested in San Francisco in connection with the Sunset Magazine story revealing secrets of the Panama canal, is well known in El Paso. He came here with his aeroplane on an attempted flight from the Pacific to the Atlantic coast, following the sensational flight of Cal Rogers to the Pacific coast. He had a number of accidents here and smashed his machine against the Washington park fence. He finally succeeded in making a flight east, but abandoned his trip to the Atlantic, after reaching Louisiana. He made the first flight over the Panama canal and locks and the picture taken of his flight together with the story which appeared in the Sunset magazine, were responsible for his arrest, reports from the coast say.

NINE PROPOSITIONS TO BE CONSIDERED BY COMMISSION.

Austin, Tex., July 11.—Nine propositions are to be considered by the railroad commission at its next monthly hearing to be held on Tuesday, July 14, according to the docket which has just been made public, this being an unusually light docket. Probably the most important matter to be considered by the commission is the proposed revision of classification rule No. 2. It is proposed to penalize shippers for underbilling, underestimating and misdescribing shipments of freight.

ARRESTED FOR ASSAULT.

Juan Martinez was arrested by the police Friday night on a charge of criminal assault. The alleged victim of the attack is said to be but 13 years old.

PRISONERS PRESENT VIEWS TO WOMEN

New York, July 11.—Sitting in council around a table in the warden's office at Blackwell's island prison, eight men wearing the striped clothes of the prison, told their complaints to Dr. Katherine Davis, commissioner of corrections. They were representatives of the men who rioted at the prison Thursday night and Friday. Asserting that order must be maintained if it should be necessary to summon state militia, Dr. Davis entered the prison, called out to the men in their cells to select a committee to represent them, and later met the committee in the warden's office after hearing out all prison attached.

When this unusual conference concluded, Dr. Davis said she was not satisfied that the men had just cause for complaint.

INSANE MAN PRAYS RESIDE BED WHERE THREE WERE SLAIN.

Chicago, Ill., July 11.—Peter Bucknow, an escaped patient from the asylum at Kankakee, dropped to his knees, and mumbling a prayer, crossed himself repeatedly Friday beside a bed in Blue Island where two women and a child were murdered with an axe Sunday night. The insane man, who is suspected of the murders, then fled from the house and fought all attempts to take him back.

Bucknow was taken to Blue Island by Chicago detectives. His actions strengthened suspicions aroused by blood on his clothing and shoes and an admission he was in the suburb the night of the crime.

MEXICAN BANK CLOSES BRANCHES

Mexico City, Mex., July 11.—The National bank of Mexico has decided to close its branches throughout the republic.

Preliminary Showing of the New Suits and Coats

For the Coming Season

For a month past the "Popular" has been showing new modes for early fall wear—in both suits, coats and dresses. Our eastern buying forces—alert and watchful of the changing fashions, have forwarded from day to day such garments as would be suited for the very particular clientele of this store—styles not daring or freakish—but that would be correct in mid fall season. These first comers were sold almost as quickly as they were shown—but the past few days have brought a superb gathering of authentic fashions in early fall garments for Monday's showing.

AS AN EXAMPLE—THERE ARE THE NEW "CAPE" SUITS

This type of suit will be generally used this fall—and are now shown here in an ample choosing. They are developed in soft serges for the most part, while the popular gabardine weaves are employed successfully in others. Some show a decidedly novel feature in the double cape effect, while rich silks form the collar and vest. Another feature is the long tunic, pleated at the bottom, or with the drop skirt pleated at the foot, which permits greater freedom of the feet. Outer skirts are treated in a novel manner—the long tunic being laid on either side in four inch plaits, so that a graceful flare is widened about the lower edge, though no undue fullness is observed at the waistline.

BOTH LONG AND SHORT JACKETS WILL BE WORN—THERE WILL BE TWO DISTINCT LENGTHS FOR TAILORED SUITS THIS FALL.

For general use, the shorter jacket is the most becoming and popular type, especially in the 32 and 36 inch lengths. The long "Redingote" suit jacket, however, is noted as the ultra fashionable style feature for the coming season.

NEW DRESSES, CAPE COATS AND SKIRTS

are also offered in an ample choosing, embracing every new style and color by the leading couturieres of fashion's domain.

Let Us Have the Pleasure of Showing You These New Garments—if places you under no obligations to purchase whatever—but will serve to keep you posted—both as to the newest fashions—and the "Popular" standard of values.

July Clearance Sale

Monday Ushers in the Third Week of Clearance

—With no abatement of effort on our part to surpass each previous day's selling with yet more amazing values. The fame and the wonderful price concessions this sale offers, has spread far and near—resulting in a continued succession of throngs of thrifty buyers.
